RUBAN - NETWORK ENGINEER & SYSTEMS ARCHITECT

Email: rubanpooventhan@outlook.com | Experience: 2.5+ Years | Location: Global / Remote

PROFESSIONAL PROFILE

I build scalable frameworks, Network solutions, and AI-powered workflows to deliver reliable, high-quality software across enterprise cloud and on-premises environments.

CORE COMPETENCIES

- Networking: Cisco Catalyst Routing & Switching, VLANs, Trunking, OSPF, BGP
- Systems: Windows Server, Linux (Ubuntu/RHEL), Active Directory Domain Services
- Security & Cloud: Next-Gen Firewalls, AWS Cloud (VPC, IAM, EC2), IPSec VPN, 802.1X
- Virtualization: VMware vSphere, ESXi 8.0, vCenter, vMotion, vSAN Clusters
- Scripting & Code: PowerShell, TypeScript, JavaScript, Python, Playwright, CI/CD

WORK EXPERIENCE

System Engineer | Enterprise Technology Infrastructure (2024 - Present)

- Architected high-availability network security boundaries and multi-site IPSec VPNs.
- Orchestrated Active Directory federation with AWS IAM Identity Center and SSO.
- Maintained 99.98% uptime across 40+ production virtual machines on VMware clusters.
- Automated infrastructure tasks and compliance auditing using PowerShell and bash.
